LOCAL HAPPENINGS.

Peto's Magic Corn Cure is an infallible remedy.

Shetland ponies are being bred with much success in Colorado.

Peto's Toothache drops, will cure aching teeth instantaneously.

Climax chewing tobacco only 50 cents a plug at the Willows cigar store.

Three new patents appear in this issue of the EPITAPH, on the fourth page.

Mr. Robert Eccleston left on the stage Friday, on a business trip to Fort Grant.

Geo. W. Cheyney left on Thursday for California to join his family, who are at Long Beach.

Peto's Carbolic Salve is the greatest remedy ever discovered for curing cuts, sores and bruises.

Mrs. Geo. R. Watt, who has been very ill for some time past, is much better.

Horses taken to pasture by G. W. Trull, at the Boston Mill Ranch, for \$3 per month.

The bad men of Arizona will soon exist only in memory. Another evidence of the boom.

Gregory's Restaurant opened this week in the Ritter building to good patronage. Give it a trial.

Mrs. Casper Taylor and family returned this week from California. Mrs. Taylor's health is much improved.

H. G. Howe contemplates a trip to St. Louis the last of this month to be present at the Grand Army reunion.

Our public schools, under the very efficient corps of teachers in charge, are running as smoothly as clockwork.

The Cochise Hardware & Trading Co have received thirteen car loads of freight during the last two weeks.

Four faro games are running here now, while there was only one a month ago. Another evidence of the coming boom.

Did you ever notice the singular coincidence that when the western mail fails to arrive the telegraph wires are always down?

Peto's Toilet Cologne is manufactured by him from French Pomade, and is as fine as the imported article. It is sold for less than half the cost.

Mrs. L. S. Trask has a number of nicely furnished rooms at her residence in Benson, which she keeps for the accommodation of the traveling public.

John McGann, an old stage driver, committed suicide last Saturday at the Carlisle mine, by shooting himself through the head with a Winchester rifle.

The cheerful countenance of Post Surgeon Brown, of Fort Huachuca, was seen on our streets on Thursday. The doctor has valuable mining interests in Sonora.

H. A. Tweed has been appointed guardian of the children left orphans by the death of their mother, Mrs. Antonia Edmunds, this week. The responsibility could not rest in more worthy hands.

Judge Peel has disposed of his interest in the Fashion saloon to Johnny Dean, who has been conducting that popular resort for some time. Johnny is a thorough saloon man, and good boy as well.

An order has been issued prohibiting the running of stock, other than Government stock, on the Fort Grant reservation. Two soldiers are detailed at the revolve every morning so as to enforce this order.

The Elite Theatre will present an unapproachable programme the coming week. The new artists, Ryan and Randall, Miss Blanch Leslie and Miss Daisy Gordon, are said to be the best that ever came to Tombstone.

Dr. Dodge, of Menasha, Wis., who has been visiting his old friend, Capt. S. L. Hart, left on Thursday for Nogales. The Doctor is pleased with Tombstone, and may return and settle among us, which it is hoped he may conclude to do, as he is a very pleasant gentleman to meet, and bears a high reputation as a physician.

WEEKLY MINING REPORT.

Mining matters are looking brighter than last week. Several new and important strikes have been made, the details of which we are not permitted to publish. For some reason the greatest reticence is being observed by mine owners, and it is next to impossible to get at bottom facts. Properties are continually changing hands, and there is an under current which presages great activity in the near future. Exploitation is being actively prosecuted, and the camp is getting down to solid business. Not less than 500 men are employed by the different mines, and yet there is no outward appearance of interest or excitement. Yet the feeling of confidence is strengthening, and altogether the outlook has not been as bright in three years.

GRAND CENTRAL M. CO.

There is nothing new to report in the operations of this great corporation. Work on the new shaft and pump house continues with unabated vigor, and the usual amount of ore is going to the mill from the Emerald, State of Maine, Silver Thread, Boss, "87" and other properties of the company.

OLD GUARD.

Work of enlarging the main shaft to a double compartment advances as rapidly as three shifts can effect the same. A large quantity of machinery for the mill is now on the ground, and the grade is nearly completed. The new buildings are going up rapidly. Thirty-five men are employed.

GROUND HOG.

Although this property has only twelve men employed, it has 2,500 feet of systematic development work, and sufficient quantity of ore in sight to warrant the erection of a mill. Twenty-five thousand dollars worth of ore has been shipped from it. Superintendent Fisher returned from the east last week, and the President of the company is expected here the coming week, when important matters will be decided upon looking to a vigorous prosecution of the work. The Ground Hog is considered one of the best properties in the camp.

LUCKY CUSS.

New double-compartment shaft down twenty feet. Three shifts at work. This shaft will tap a large ore body already developed by drift and winze.

VIZINA.

Recently a good body of ore has been developed in this property. A carload was shipped this week and another will be shipped the coming week.

OMEGA.

What is considered an important strike was made in this property yesterday. The drift from the 100 foot station, in 20 feet, encountered a body of high grade ore, and the end is not yet.

Dr. Goodfellow and C. S. Fly who went into the Sierra Madre about five weeks ago to observe the effects of the earthquake, have returned.

The steady rains of the past two months culminated on Wednesday with a furious storm which did considerable damage to adobe walls, roads and bridges.

Herera & McClure have secured the government contract for 400 tons of hay to be delivered at Fort Huachuca at \$19 a ton. Verily a fat contract, considering the splendid grass on the reservation. John Hill has a contract for a hundred tons at \$13.

The Pima County rodeo will commence at the mouth of the Sonoita on October 20th, working over Sanford's to Richardson & Gormley's ranch, thence over the Empire ranch to Pantano. This is a round-up that interests many in this county.

Watt & Tarbell opened this week their new undertaking establishment, adjoining Hare & Page's livery stable, and are now ready for business. They have fitted up the front room in parlor-like manner and to the rear are stock and store-rooms. An elegant new hearse, purchased in Cincinnati at a cost of more than a thousand dollars, arrived this week. Both are practical men, and will give their personal attention to the details of the business, which they propose to conduct on pure principles, hoping thereby to secure their share of the public patronage.

Sudden Death.

Dr. Flint's Heart Remedy will prolong life by preventing those sudden deaths from heart disease which bring untold grief to families, often plunging them into poverty, because of the untimely disease of the bread-winner. At drug-gists, \$1.50. Descriptive treatise with each bottle, or address J. J. Mack & Co. San Francisco.

BAD WHISKY.

It Causes the Killing of a Man and the Wounding of Another.

Last Wednesday, Joe Smith, a cowboy employed by Smith & Bodie, went into Bisbee, got on a spree, and about 2 o'clock in the morning fired off his six-shooter in Clark & Letson's saloon, shooting into the floor. Deputy Sheriff Dan Simons, who was present, went up to him and endeavored to arrest him. Instead of submitting, Smith raised his pistol and fired at the Deputy, the ball passing through his coat sleeve and thence into his left side. Simons then drew his pistol and shot Smith through the heart, causing instant death. Simons was brought into Tombstone Thursday, where his wound was dressed by Dr. Goodfellow, who pronounces it not at all dangerous. The general verdict of the people is that the killing was justifiable. Smith came here about a year ago from Montana, and was represented to be quiet and peaceable when not drinking, but when crased with whisky, was quarrelsome and dangerous.

GOOD WORK.

Sheriff Owens Does Up a Gang of Outlaws.

Sheriff Owens of Apache county, and posse, who went to Tonto Basin to arrest Tewksbury and Graham, were more successful than Sheriff Mulvenon of Prescott. About noon on September 4th at Holbrook, Sheriff Owens of Apache county shot and killed three men and wounded a fourth. The dead men were desperadoes from Tonto Basin, and the Sheriff had warrants for their arrest as sheep and cattle thieves. The Sheriff found his men in a little shanty at Holbrook, adjoining the livery stable of Brown and Kinders. He ordered the men to surrender and they opened fire on him in an instant. He replied with fatal precision. In a moment three dead desperadoes and the fourth fatally wounded attested to the accuracy of Sheriff Owens' fire. The names of the men killed are Blevins, Cooper and Roberts and the wounded man is named Blevins, a brother of one of the men killed.

For months a reign of terror has existed in the Tonto Basin country of Arizona; a dozen men have been killed and cattle and sheep stealing has become a regular business. The authorities have determined to break up the lawless gangs who are terrorizing the country, and the quick work of Sheriff Owens is a good beginning.

Andy Cooper, the man shot by Sheriff Owens, died, and with his half-brother Samuel Blevins, a boy of 14, was buried on the 5th. Mose B. Roberts is dying. John Blevins will recover. This makes four of the Blevins family killed within two weeks, a father and three sons. The end is not yet.

At a Coroner's inquest held on the body of Houston Blevins the jury found the following verdict:

We, the Coroner's jury, find that the deceased, Houston Blevins, met his death from a gunshot wound by the hands of C. F. Owens, Sheriff of Apache county, A. T., and from the evidence given, we, the jurors, find that the killing was justifiable, the deceased having offered armed resistance to the Sheriff, while in the lawful discharge of his duties, while attempting the arrest of one Andy Cooper.

The entire acts of the Sheriff in the justifiable killing of the above party and Andy Cooper are endorsed by all the respectable and law-abiding citizens of Holbrook.

TERRITORIAL NEWS.

Recent gold discoveries in the western edge of the Superstition mountains are said to be very valuable. One lead 8 feet wide, assays from \$12 to \$39.50 per ton. The Arizona states that Judge J. D. Reymert has two men at work developing a claim there.

The people of Harshaw want a wagon road built across the mountains to the Santa Cruz to connect with the Nogales road. It would cost about \$2,000 for the work and the road would open up numerous mines which are now isolated from any public highway.

The school trustees of this district have shown their good judgment in declaring in favor of economy by a general reduction in teachers' salaries. Eighty dollars for twenty days of six hours each is a good compensation, and the teachers all appear to be well satisfied with the reduction.—Star.

Another water storage project has taken definite shape in the matter of the construction of an immense reservoir on Lynx creek, near Prescott, for the purposes of grazing, mining and agriculture. Ex-Governor Tritle, and Murphy Bros., and other prominent parties are at the head of the enterprise.

Arizona mine holders whose properties run low in silver and high in lead are advised to hold on to them for the present at least. There is every prospect that there will be a great demand ere long for such ore for fluxing purposes, and the Grant and Argo smelters at Denver are already offering a bonus for it.—Enterprise.

We learn, although not officially, that four of the five Indians who were recently tried at San Carlos for the attack upon Captain F. E. Pierce and Chief of Scouts Al. Sieber, have been taken to California, and as is presumed, to prison on Alcatraz, an island in the bay of San Francisco. The fifth one of the offenders is still restrained of his liberty at San Carlos.—Silver Belt.

Respectfully Referred to the Prospector. (New York World.)

Citizen (to stranger)—Are you blind, my friend?
 Stranger—Only partially so, sir.
 Citizen—It is, a great affliction to be even partially so, sir.
 Stranger—It is sir, but fortunately it does not interfere with my business.
 Citizen—What business are you in?
 Stranger—I'm a proof reader on a country daily.

Our delegate to Congress delights in telling a tale about a man who informed an Irish friend that on going home the night before, he found his wife in bed with *cerebro spinal meningitis*, to which the Irishman responded with much indignation: "Why didn't you kill the Italian son of a gun?" Were it not for Mark's well-known reputation for veracity, some doubts would exist about the truthfulness of the story.

The supervisors of Graham county are getting up a pamphlet on the resources of the county for general distribution.

We are now prepared to draw drafts direct, issue letters of credit, and transfer money by mail, and cable, on all points of Europe Asia, Africa and Australia.
